EXPERIENCE

Senior Software Developer & Agency Lead

Dream Software Studios | 2026

- Lead end-to-end software delivery across mobile, web, backend, and product design workstreams.
- Ship large-scale products across logistics visibility, anti-fraud tooling, EV mobility, marketplace flows, and video-first creator networks.
- Translate rough product ideas into scoped systems, polished interfaces, and working production builds.

Agency Builder & Tech Creator

Dream Software Studios / @styceplug | 2025

- Expanded internal and client product work across Flutter, Dart, Firebase, React, and real-time interfaces.
- Scaled an audience of over 13,000 followers through software development insights, tech content, and gadget reviews.

Flutter & Mobile Engineer

Freelance / Product Builder | 2024

- Built launch-ready MVPs and mobile apps using Flutter, Dart, WebSockets, maps, geolocation, and real-time data flows.
- Designed user journeys and interfaces that balance technical depth with calm, usable product experiences.

SELECTED PROJECTS

Fyndr

AI-powered marketplace for verified service providers

- Built customer and vendor journeys, service categories, job screens, onboarding, and marketplace discovery flows.

OtoNav

Delivery visibility and logistics management platform

- Shipped mobile and admin experiences for delivery visibility, rider tracking, order operations, and fraud prevention.

TECHNICAL ARSENAL

Flutter

Dart
